## **NorthStar Big Boss Utility 6X6 800 EFI Twin Six Wheel Shaft Drive**

### **Specifications**

Based on Polaris Sportsman Big Boss 6X6 800 EFI vehicle.

#### **Chassis**

- Aluminum superstructure on base frame.

#### **Front Deck and Superstructure**

- Rail tie down channel recessed in deck top with added periphery tie downs.
- Deck height 5 ½ inches (14cm) lower than standard Sportsman 6x6 front rack.
- Entire assembly folds forward for service access to radiator. Hand operated latches provide access.
- Roll over bar on rear of front deck to protect operator controls.
- Front mounted 3500 lb. winch integrated and recessed into super-structure.
- Two forward vehicle transport tie down locations.

#### **Rear Deck and Superstructure**

- Double aluminum C-channel top frame and rear deck support.
- Rail lock down channel recessed in deck with added periphery tie downs.
- Rollover bar on front of rear deck to match front deck rollover bar.
- Rear 3500 lb. winch integrated and recessed into rear bumper and hitch.
- Two rear vehicle transport tie down locations.

#### **Driver/Passenger Cockpit**

- Control panel with switches and gauges separate from steering column.
- Access on front side of control panel for servicing gauges and wiring.
- Storage area in front of driver seat.
- Passenger seating on each side of driver with under seat storage.

#### **Side Panels**

- Quick detach side panels/foot rests for quick service access to engine on right side and CVT on left side.
- Secondary foot rests for emergency operation with side panels/footrests removed.

#### **CVT Access**

- Quick access CVT cover for belt changing.
- Petcock water drain on CVT cover.

#### **Engine**

- Recoil back-up starter.
- Back-up battery to power EFI if main battery discharged.
- Quick access to spark plugs for servicing.

#### **Cooling System**

- Large oversize radiator for cooling in severe duty conditions.

#### **Fuel System**

- Fuel tanks integrated into rear chassis. 15 gallon (57 liter) capacity.
- Fuel fill under seat.

#### **Controls**

- Hand warmers and throttle thumb warmer.
- Six DC outlets - 2 at front dash area, 2 on each side at passenger seat storage.

#### **Undercarriage**

- Aluminum plate - ¼ inch (6mm) - undercarriage skid protection for drivetrain and suspension components.
- Heavy duty front A-arms – box beam with heavy duty automotive style lower ball joint.

#### **Optional Military Specs Available**

- Front tow hitch with integrated wire cutter. Stows under rear deck. Fits military pintle hitch.
- Heavy duty front and rear springs.
- Infra-red drive lights with white light blackout.
- Stretcher carrier.
- Spare tire carrier.
- Gas can carrier.
- Run-flat tires.
- Stackable secondary rear deck pods with integrated storage (fits standard ammo box).
- Special colors and camouflage treatment.

Specifications are subject to change without notice. Vehicles can be adapted for special customer needs.
